The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

IRIS FETTERMAN

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies arent required to allow competitors access to the market. The copper wires were laid by the funds provided **by** the consumers in the first place. Suddenly, the phone company should not be given exclusive ownership of this asset. I submit that even FCC does not have the right to do so.

Im also concerned about the Commissions move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

D. Deepak Chadha

Dear Ms. Dortch:

Please be advised that on February 13, 2003, Robert S. Tongren, Ohio Consumers' Counsel, President of the National Association of State Utility Consumer Advocates ("NASUCA"¹), e-mailed a letter to Chairman Michael K. Powell and Commissioners Kathleen Q. Abernathy, Jonathan S. Adelstein, Michael J. Copps and Kevin J. Martin. The letter was also e-mailed to the members of the FCC Staff listed below. In accordance with 47 C.F.R. § 1.1206(b)(1), this notice of *Ex Parte* Presentation and a copy of the letter are being filed with you electronically for inclusion in the public record. If you have any questions, please contact me at bergmann@occ.state.oh.us or (614) 466-9559.

Sincerely,

David C. Bergmann
Assistant Consumers' Counsel
Chair, NASUCA Telecommunications
Committee

Several years ago, the Congress deregulated the telephone business, and as I recall the situation, it was done mostly at the big \$\$ public pressure campaign by the telephone companies themselves. Now those same companies want to change the law back to the way it was!!

Sounds like cry babies to me. Let them compete fairly. What they are wanting to do is screw the consumer again.

I already have to pay Verizon about \$25 a month just to have an active phone line -- whether I make a call or not. Plus, Verizon has this terrible "user sensitive service" charge whereby I have to pay again just to use the line to make a local call.

I would like to have the choice to change my local service to a different phone company. I would change in a minute!

Sincerely,

Larry A. VanMeter

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

TOM DAWES
